

Soften your head! !

This problem is to find companion

An example

=

If the earth was made of **rubber clay**, it would become a **paper-like plane** when extended with a stick.

1st Question: There are 11 items. Please classify them into 4 types of groups. Human is one of the items, so please classify it.

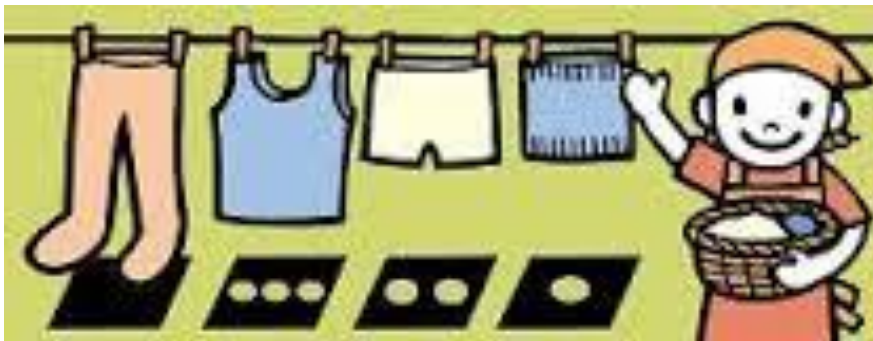

Hint

Quote: PR magazine of
http://www.riken.jp/~media/riken/pr/publications/annual_report/pr_riken-2016-jp.pdf

Sunlight enters through a hole on one side and the light-spots appear on the ground.
